

# Job Cost Accounting

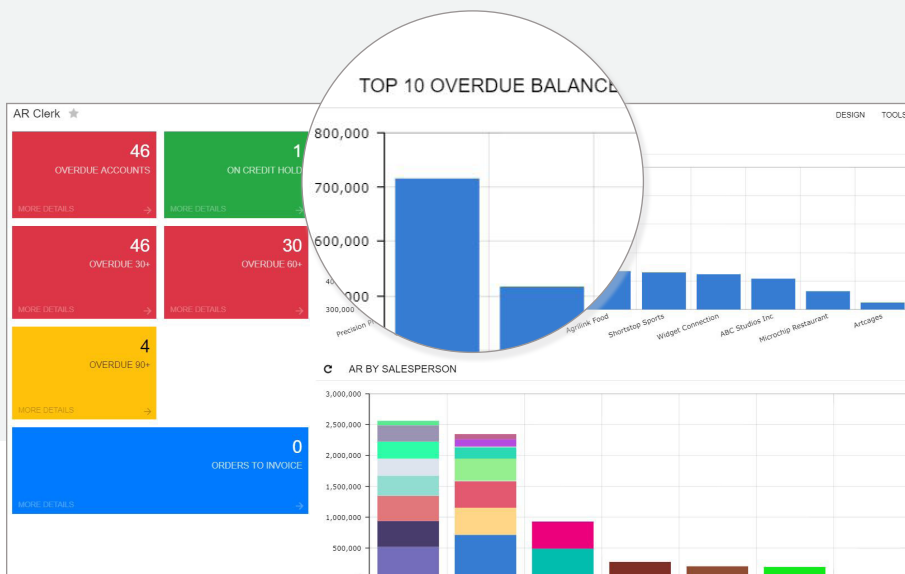

ACUMATICA  
CONSTRUCTION  
EDITION

## Make Better Decisions

When you know your true costs from subcontractors to materials and overhead, you can master the bidding process for construction projects and win more profitable jobs.

With Acumatica's Job Cost Accounting you can easily enter A/P invoices, write checks, bill customers, and charge time to jobs so that job cost and billing information is always up-to-date. This detailed job information will help you determine problem areas in current jobs and gives you information to accurately estimate future projects.

Flexible reporting and dashboards provide essential data at your fingertips in one convenient location allowing you to make insightful decisions.

Dashboards provide up-to-the-minute cost information

### BENEFITS INCLUDE:

#### **Up-to-the-minute cost information**

Assures every project is under budget and profitable.

#### **Proactively respond to changes**

Project teams can identify potential issues on the job and respond sooner.

#### **Manage the team and progress of the job**

Performance that is measured, improves and leaders can assist the team as needed.

#### **Enhance estimating for future projects**

As costs are identified by job, this information is valuable when evaluating and estimating upcoming projects.

# Job Cost Accounting

## KEY FEATURES:

- **Real-time job costing:** Captures labor, material and equipment costs from any device providing instantaneous updates.
- **Flexible project billing types:** Easily manage progress billing, T&M, fixed-price and cost plus based on project requirements.
- **Expedite project invoicing:** Automatic cost updates enable one-click invoicing.
- **On-demand WIP reporting:** Revenue and cost projections can be reviewed and updated at the Job/Contract level for Work-in-Progress and financial reporting purposes.
- **Simplified commitment management:** Effectively manage all aspects of subcontracts and purchase order management, including lien and compliance tracking, from one-click document creation to automated invoice review and approval routing.
- **Flexible dashboards:** Quickly create customized dashboards with drill-down capabilities to display essential information, easily broken out by role, project, department, and more.

“Acumatica Construction Edition is a modern cloud solution that handles our manufacturing, service, distribution and construction business in one cohesive integrated solution allowing a seamless flow of data.”

**Ron Fairchild, CFO**  
Texas Scenic
